SUMMARY

Web Designer with experience in creating responsive and user-friendly websites. Knowledgeable in manual website quality assurance, including functionality testing and identifying UI issues to ensure a seamless user experience.

WORK EXPERIENCE

eClerx - Web Designer Analyst

Oct 2024 - Present

- Designed and developed responsive websites using Duda based on client requirements, implemented website updates and design revisions, and ensured websites were visually appealing, functional, and optimized across different devices.
- Conducted manual quality assurance testing for Duda websites by verifying functionality, responsiveness, content accuracy, and UI consistency, identifying issues, and ensuring websites met quality standards before deployment.

Endsofttech Web Solutions - Junior Web Designer

July 2024 - Oct 2024

- Designed and developed responsive websites using WordPress and Elementor, ensuring visually appealing layouts and optimal functionality across all devices.
- Handled support tickets related to design revisions and website content updates, ensuring prompt resolution in alignment with client requests.
- Conducted website quality assurance testing using Excel to document bugs, track performance issues, and ensure functionality and responsiveness across browsers and devices

Endsofttech Web Solutions - Front-End Web Developer Intern

Mar 2024 - June 2024

- Designed and developed responsive websites using WordPress and Elementor page builder.
- Created UI/UX designs for web projects, ensuring aesthetic appeal and usability.

EDUCATION

Cavite State University - Silang

2020 - 2024

Bachelor of Science in Information Technology

- Capstone Project: Developed and designed Laya, a Java-based Augmentative and Alternative Communication (AAC) mobile application that helps non-verbal children communicate through an accessible and user-friendly interface.
